SUMMER CONDITIONING PROGRAM

Please follow the program below during the summer to be ready for try-outs.

All candidates should be able to complete a 2-mile run (in 12 minutes or better for sophomores, juniors and seniors and in 14 minutes or better for freshman) on the first day of try-outs.

Please begin and end all workouts with a 10-minute stretching program.

AEROBIC TRAINING

June – three days per week, alternate 2 or 3 mile run

- A. 2 mile run should be around 14 – 15 minutes (sophomores, juniors, and seniors) and 16-18 minutes (freshman)
- B. 3 mile run should be around 22-23 minutes (sophomores, juniors, and seniors) and 23-25 minutes (freshman)

July – four days per week, alternate 1, 2, and 3 mile runs

- A. 2 mile run should be at 14 minutes or better (sophomores, juniors, and seniors) and 14 minutes or better (freshman)
- B. 3 mile run should be at 22 minutes or better (sophomores, juniors, and seniors) and 25 minutes or better (freshman)

August – three or four days per week

- A. 2 mile run times should be at or below our goal of 12 minutes (sophomores, juniors, and seniors) and 14 minutes (freshman)

ANAEROBIC TRAINING

June – three days per week, preferably running the program indicated below on alternate days from the distance program

Option #1:	10 – 50's	Option #2:	5 – 50's	Option #3:	4 – 50's
	8 – 110's		10 – 110's		6 – 220's
	4 – 220's		2 – 220's		

In June, run the above ANAEROBIC TRAINING PROGRAM options at $\frac{3}{4}$ speed and rest between sprints. Time your sprint and give yourself 3x your workout as a rest interval.

Example: 110-yard sprint in 20 seconds

Rest interval – 3x20 seconds = 60 seconds (1 minute)

July – use the above interval program at full speed with the same rest ratio.

Incorporate an adequate warm-up prior to any full-speed sprint.

Example: Start every interval day with a few $\frac{1}{2}$ to $\frac{3}{4}$ speed time while using 25-50 yards for distance.

August – using the interval options available. Change your rest period ratio.

Example: 220-yards in 40 second

Rest interval = 2x40 seconds = 80 seconds (1:20)
