

West Hartford Public School District

Agenda Item: Hall High School Science Lab Update

Meeting Date: May 16, 2017

From: Andrew Morrow, Assistant Superintendent for Administration

Through: Tom Moore, Superintendent

Background:

Construction of Hall High School's \$12.8M science classroom addition will begin this summer with preliminary site-work preparation. Hall's existing science classrooms were constructed in the 1970's and no longer meet the needs of our students and curriculum. This addition of eight new biology and chemistry laboratories and renovation of existing science rooms will continue throughout the 2017-2018 school year.

Dr. Andrew Morrow and Mr. Bob Palmer will provide an update on the project and be available to answer any questions.

**Agenda Item:
VI. B. 1.**
