

WEST HARTFORD PUBLIC SCHOOLS

POLICY 4170

Professional Personnel - Certified

Tutoring - Counseling

It is the Board's policy that teachers' responsibility for educating students extends past the last minute of the classroom day and that students requiring additional assistance be rendered such during the school year in a reasonable fashion. Therefore, no West Hartford teacher shall receive any remuneration during the school year from the parents of such students that they teach.

Private Counseling

The private counseling of West Hartford students by certified West Hartford professionals is prohibited in that such private contact could be in conflict with professional duties and may put the professional in an adversarial position with the school district.
