Updates for 2017-2018

AimswebPlus literacy and math assessments can be administered at any point within the benchmark windows listed above. Individual buildings will develop schedules to support their staffing/needs. Building assessment teams in both literacy and mathematics will support Grade K-1 aimswebPlus individual assessments. In addition to supporting aimswebPlus administration, building Literacy Assessment Teams will support sight word assessment in Grades K-2.

The updated version of AIMSweb (aimswebPlus) utilizes two formats for test administration:

1. Individual administration, for all Kindergarten and Grade 1 measures (math and reading) and Grades 2 - 5 Oral Reading Fluency (ORF). This data should be entered into **aimswebPlus** Digital Record Form (DRF) by the last day of each testing window. Student scores will be uploaded to Performance Plus the following week.
2. Online administration, for all other Grades 2 through 5 measures (math and reading). No data entry needed; student scores will be uploaded directly into Performance Plus the week following each testing window.

ESOL Test of Narrative Retell (K-2) will occur during aimswebPlus benchmark windows.

The following data should be entered into **Performance Plus** by the final date of each assessment window listed above:

- DRA2
- Sight Word Assessment (Grades K, 1, 2 end of year only)
- Narrative Writing On Demand (no later than February 16)

PreK Teaching Standards Gold (TSG) data should be entered into **TSG** system as determined by Department Supervisor for Early Childhood.

Grade 2-5 students' most recent Keyboarding Without Tears (**KWT**) "spot check" data will be uploaded to Performance Plus by early June. No additional testing or data entry needed. Teachers will review student progress within KWT program before March progress report/conferences.
